

AN IMPORTANT MESSAGE FROM TRANSIT WORKERS

Corporate CEOs are making millions in salaries and bonuses, yet the people who actually do the work have seen their wages cut and their jobs shipped overseas. Workers like us need protections to guarantee we have a voice for fair wages, benefits and safe working conditions.

Collective Bargaining Protects ALL MICHIGAN FAMILIES

Collective bargaining levels the playing field for all workers and provides a counterweight to powerful corporate special interests.

Collective bargaining ensures CEOs aren't the only ones benefiting from a company's success. Corporate bosses make millions while the people who actually do the work have seen their wages cut.

Bus drivers and frontline workers who keep our communities running safely will need a voice on the job. Otherwise, important decisions are left to politicians who are more influenced by corporate special interests than everyday working people.

Prop 2 will help keep jobs in Michigan. Collective bargaining helped save Michigan's auto industry because employers and employees negotiated lower costs for manufacturers while also ensuring that Michigan factories stayed open and jobs were brought back from overseas.
